~~(3)~~*(2)* The plan of operation must:

HeinOnline -- 1997 vol. I 26 1997

(e) establish procedures for allocating a portion of premiums collected from reinsuring carriers to fund administrative expenses incurred or to be incurred by the program; and

(f) provide for any additional matters necessary for the implementation and administration of the program.

~~(4)~~*(3)* The program has the general powers and authority granted under the laws of this state to insurance companies and health maintonance organizations licensed to transact business, except the power to issue health benefit plans directly to either groups or individuals. In addition, the program may:

(a) enter into contracts as are necessary or proper to carry out the provisions and purposes of this part, including the authority, with the approval of the commissioner, to enter into contracts with similar programs of other states for the joint performance of common functions or with persons or other organizations for the performance of administrative functions;

(b) sue or be sued, including taking any legal actions necessary or proper to recover any premiums and penalties for, on behalf of, or against the program or any reinsuring carriers;

(c) take any legal action necessary to avoid the payment of improper claims against the program;

(d) define the health benefit plans for which reinsurance will be provided and to issue reinsurance policies in accordance with the requirements of this part;

(f) establish actuarial functions as appropriate for the operation of the program;

(i) borrow money to effect the purposes of the program. Any notes or other evidence of indebtedness of the program not in default are legal investments for carriers and may be carried as admitted assets.

~~(5)~~*(4)* A reinsuring carrier may reinsure with the program as provided for in this subsection ~~(5)~~:

(a) With respect to a basic health benefit plan or a standard health benefit plan, the program shall reinsure the level of coverage provided and, with respect to other plans, the program shall reinsure up to the level of coverage provided in a basic or standard health benefit plan.

(b) A small employer carrier may reinsure an entire employer group within 60 days of the commencement of the group's coverage under a health benefit plan.

HeinOnline -- 1997 vol. I 27 1997

(c) A reinsuring carrier may reinsure an eligible employee or dependent within a period of 60 days following the commencement of coverage with the small employer. A newly eligible employee or dependent of the reinsured small employer may be reinsured within 60 days of the commencement of coverage.

(d) (i) The program may not reimburse a reinsuring carrier with respect to the claims of a reinsured employee or dependent until the carrier has incurred an initial level of claims for the employee or dependent of $5,000 in a calendar year for benefits covered by the program. In addition, the reinsuring carrier is responsible for 20% of the next $100,000 of benefit payments during a calendar year and the program shall reinsure the remainder. A reinsuring carrier's liability under this subsection (d)(i) may not exceed a maximum limit of $25,000 in any calendar year with respect to any reinsured individual.

(ii) The board annually shall adjust the initial level of claims and maximum limit to be retained by the carrier to reflect increases in costs and utilization within the standard market for health benefit plans within the state. The adjustment may not be less than the annual change in the medical component of the consumer price index for all urban consumers of the United States department of labor, bureau of labor statistics, unless the board proposes and the commissioner approves a lower adjustment factor.

(e) A small employer carrier may terminate reinsurance with the program for one or more of the reinsured employees or dependents of a small employer on any anniversary of the health benefit plan.

(f) A small employer group health benefit plan in effect before January 1, 1994, may not be reinsured by the program until January 1, 1997, and then only if the board determines that sufficient funding sources are available.

(g) A reinsuring carrier shall apply all managed care and claims-handling techniques, including utilization review, individual case management, preferred provider provisions, and other managed care provisions or methods of operation consistently with respect to reinsured and nonreinsured business.

~~(6) (a)~~*(5) (a)* As part of the plan of operation, the board shall establish a methodology for determining premium rates to be charged by the program for reinsuring small employers and individuals pursuant to this section. The methodology must include a system for classification of small employers that reflects the types of case characteristics commonly used by small employer carriers in the state. The methodology must provide for the development of base reinsurance premium rates that must be multiplied by the factors set forth in subsection ~~(6)(b)~~ *(5)(b)* to determine the premium rates for the program. The base reinsurance premium rates must be established by the board, subject to the approval of the commissioner, and must be set at levels that reasonably approximate the premiums necessary to recover one-half of the expenses for the calendar year. For purposes of this section, expenses include administrative expenses, one-half of the program net loss for the previous calendar year, and the actuarially anticipated claims to be incurred, adjusted to reflect retention levels required under this part.

(b) Premiums for the program are as follows:

HeinOnline -- 1997 vol. I 28 1997

(i) An entire small employer group may be reinsured for a rate that is one and one-half times the base reinsurance premium rate for the group established pursuant to this subsection ~~(6)~~ *(5)*.

(ii) An eligible employee or dependent may be reinsured for a rate that is five times the base reinsurance premium rate for the individual established pursuant to this subsection ~~(6)~~ *(5)*.

(c) The board shall annually review the methodology established under subsection ~~(6)(a)~~ *(5)(a)*, including the system of classification and any rating factors, to ensure that it is actuarially sound and that it reasonably reflects the claims experience of the program. The board may propose changes to the methodology that are subject to the approval of the commissioner.

(d) The board may consider adjustments to the premium rates charged by the program to reflect the use of effective cost containment and managed care arrangements.

~~(7)~~*(6)* If a health benefit plan for a small employer is entirely or partially reinsured with the program, the premium charged to the small employer for any rating period for the coverage issued must meet the requirements relating to premium rates set forth in 33-22-1809.

~~(8)(a)~~*(7)(a)* ~~Prior to~~ *Before* March 1 of each year, the board shall determine and report to the commissioner the program net loss for the previous calendar year, including administrative expenses and incurred losses for the year, taking into account investment income and other appropriate gains and losses, and the actuarially anticipated losses for the calendar year. The sum of one-half of the program net loss for the previous calendar year plus the anticipated net loss for the calendar year must equal the total assessment amount. If the program net loss for the previous calendar year is zero or less, the total assessment amount must equal the actuarially anticipated losses for the calendar year.

(b) (i) Each assessable carrier shall share in the program in an amount determined by multiplying the total assessment amount by a fraction, the numerator of which is the number of individuals in this state covered under disability insurance by the assessable carrier and the denominator of which is the number of all individuals in this state covered under disability insurance by all assessable carriers.

(ii) The board shall make a reasonable effort to ensure that each insured individual is counted only once for the purpose of assessment. The board shall require each assessable carrier that provides excess of loss or stop loss insurance to include in its count of insured individuals all individuals whose coverage is reinsured in whole or in part, including coverage under excess of loss or stop loss insurance. The board shall allow an assessable carrier who is an excess of loss or stop loss insurer to exclude from its count of insured individuals those who have been counted by a primary disability insurer or by a primary reinsurer.

(iii) The board shall base each assessable carrier's assessment on reports filed with the commissioner as required by 33-22-1820. The board may use any reasonable method of estimating the number of individuals insured by an assessable carrier if the specific number is unknown.

HeinOnline -- 1997 vol. I 29 1997

(c) The board shall make an annual determination in accordance with this section of each assessable carrier's liability for its share of the contribution to the program and, except as otherwise provided hy this section, make an annual assessment against each assessable carrier to the extent of that liability. Payment of an assessment is due within 30 days of receipt by the assessable carrier of written notice of the assessment. An assessable carrier that ceases doing business within the state is liable for assessments until the end of the calendar year in which the assessable carrier ceased doing business. The board may determine not to assess an assessable carrier if the assessable carrier's liability determined in accordance with this section does not exceed $10.

(d) The board may establish and maintain program reserves not to exceed five times the actuarially anticipated losses for the calendar year.

(e) If the sum of the reinsurance premiums and assessments in any calendar year exceeds the sum of the administrative expenses and incurred claims for that year, the board may proportionately credit the excess to assessable carriers or it may place the excess in program reserves, subject to the limits in subsection ~~(8)(d)~~ *(7)(d)*.

~~(9)~~*(8)* The participation in the program as reinsuring carriers; the establishment of rates, forms, or procedures; or any other joint collective action required by this part may not be the basis of any legal action, criminal or civil liability, or penalty against the program or any of its reinsuring carriers, either jointly or separately.

~~(10)~~*(9)* The board, as part of the plan of operation, shall develop standards setting forth the minimum levels of compensation to be paid to producers for the sale of basic and standard health benefit plans. In establishing the standards, the board shall take into consideration the need to ensure the broad availability of coverages, the objectives of the program, the time and effort expended in placing the coverage, the need to provide ongoing service to small employers, the levels of compensation currently used in the industry, and the overall costs of coverage to small employers selecting these plans.

~~(11)~~*(10)* The program is exempt from taxation.

~~(12)~~*(11)* On or before ~~March~~ *July* 1 of each year, the commissioner shall evaluate the operation of the program and report to the governor and the legislature in writing the results of the evaluation. The report must include an estimate of future costs of the program, assessments necessary to pay those costs, the appropriateness of premiums charged by the program, the level of insurance retention under the program, the cost of coverago of small employers, and any recommendations for change to the plan of operation.

~~(13)~~*(12)* All premiums and other money paid to the small employer carrier reinsurance program and all property and securities acquired through the use of money and interest and dividends earned on money belonging to the small employer carrier reinsurance program are solely the proporty of the program and must he used exclusively for the operations and obligations of the program. Money collected by the program is not subject to legislative appropriation."

(b) If the allocation in subsection (6)(a) exceeds the total budget for a taxing unit, the commissioners may direct the county treasurer to allocate the excess to any taxing unit within the county.

(7) The board of trustees of an elementary or high school district may reallocate the coal gross proceeds taxes distributed to the district by the county treasurer under the following conditions:

HeinOnline -- 1997 vol. I 44 1997

(8) The county treasurer shall credit all taxes collected under this part from coal mines that began production after December 31, 1988, in the relative proportions required by the levies for state, county, and school district purposes in the same manner as property taxes were distributed in the previous fiscal year. [HB 36]

AN ACT MODIFYING THE BOARD OF INVESTMENTS' AUTHORITY TO SELL REAL PROPERTY HELD AS AN INVESTMENT; AND AMENDING SECTIONS 17-6-201, 77-1-101, AND 77-1-701, MCA.

*Be it enacted by the Legislature of the State of Montana:*

**Section 1.** Section 17-6-201, MCA, is amended to read:

**"17-6-201. Unified investment program — general provisions.** (1) The unified investment program directed by Article VIII, section 13, of the Montana constitution to be provided for public funds must be administered by the board of investments in accordance with the prudent expert principle, which requires ~~any~~ *an* investment manager to:

(a) discharge the duties with the care, skill, prudence, and diligence, under the circumstances then prevailing, that a prudent person acting in a like capacity with the same resources and familiar with like matters exercises in the conduct of an enterprise of a like character with like aims;

(b) diversify the holdings of each fund within the unified investment program to minimize the risk of loss and to maximize the rate of return unless, under the circumstances, it is clearly prudent not to do so; and

(c) discharge the duties solely in the interest of and for the benefit of the funds forming the unified investment program.

(2) (a) Retirement funds may be invested in common stocks of any corporation, except that an investment may not be made at any time that would cause the book value of the investments in ~~any~~ *a* retirement fund to exceed 50% of the book value of the fund or would cause the stock of one corporation to exceed 2% of the book value of the retirement fund.

(b) Other public funds may not be invested in private corporate capital stock. "Private corporate capital stock" means only the common stock of a corporation.

(3) (a) This section does not prevent investment in any business activity in Montana, including activities that continue existing jobs or create new jobs in Montana.

(b) The board is urged under the prudent expert principle to invest up to 3% of retirement funds in venture capital companies. Whenever possible, preference should be given to investments in those venture capital companies that demonstrate an interest in making investments in Montana.

(c) In discharging its duties, the board shall consider the preservation of purchasing power of capital during periods of high monetary inflation.

(d) The board may not make a direct loan to an individual borrower. The purchase of a loan or a portion of a loan originated by a financial institution is not considered a direct loan.

(4) The board has the primary authority to invest state funds. Another agency may not invest state funds unless otherwise provided by law. The board shall direct the investment of state funds in accordance with the laws and constitution of this state. The board has the power to veto ~~any~~ investments made under its general supervision.

(5) The board shall:

(a) assist agencies with public money to determine if, when, and how much surplus cash is available for investment;

(b) determine the amount of surplus treasury cash to be invested;

(c) determine the type of investment to be made;

(d) prepare the claim to pay for the investment; and

(e) keep an account of the total of each investment fund and of all the investments belonging to the fund and a record of the participation of each treasury fund account in each investment fund.

(6) The board may:

(a) execute deeds of conveyance transferring ~~all~~ real property obtained through ~~foreclosure of any~~ investments ~~purchased under the provisions of~~

~~17-6-211 when full payment has been received for the property~~. *Prior to the transfer of real property directly purchased and held as an investment, the board shall obtain an appraisal by a qualified appraiser.*

(b) direct the withdrawal of ~~any~~ funds deposited by or for the state treasurer pursuant to 17-6-101 and 17-6-105;

(c) direct the sale of ~~any~~ securities in the program at their full and true value when found necessary to raise money for payments due from the treasury funds for which the securities have been purchased;

(d) expend funds needed to cover costs of necessary repairs to property owned by the board as an investment. The expenditures may be made directly by the board and are statutorily appropriated, as provided in 17-7-502. Repairs that cost in excess of $2,500 must be bid, and the bid must be awarded in compliance with existing state law and regulations. Emergency repairs may be made by the board without bid if approved by the state architect.

(7) The cost of administering and accounting for each investment fund must be deducted from the income from each fund.

(8) At the beginning of each fiscal year, the board shall, from the appropriate fund, reimburse the department of commerce for the costs of administering programs established under Title 90, chapter 3, that are not covered by payback funds available from the account established in 90-3-305."

**Section 2.** Section 77-1-101, MCA, is amended to read:

[SB 1]

AN ACT CLARIFYING NITRATE WATER QUALITY MEASUREMENTS; AMENDING SECTION 75-5-301, MCA; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE AND A RETROACTIVE APPLICABILITY DATE.

*Be it enacted by the Legislature of the State of Montana:*

**Section 1.** Section 75-5-301, MCA, is amended to read:

**"75-5-301. Classification and standards for state waters.** Consistent with the provisions of 80-15-201 and this chapter, the board shall:

(1) establish the classification of all state waters in accordance with their present and future most beneficial uses, creating an appropriate classification for streams that, due to sporadic flow, do not support an aquatic ecosystem that includes salmonid or nonsalmonid fish;

(2) (a) formulate and adopt standards of water quality, giving consideration to the economics of waste treatment and prevention. When rules are adopted regarding temporary standards, they must conform with the requirements of 75-5-312.

(b) Standards adopted by the board must meet the following requirements:

(i) for carcinogens, the water quality standard for protection of human health must be the value associated with an excess lifetime cancer risk level, assuming continuous lifetime exposure, not to exceed $1 \times 10^{-3}$ in the case of arsenic and $1 \times 10^{-5}$ for other carcinogens. However, if a standard established at a risk level of $1 \times 10^{-3}$ for arsenic or $1 \times 10^{-5}$ for other carcinogons violates the maximum contaminant level obtained from 40 CFR, part 141, then the maximum contaminant level must be adopted as the standard for that carcinogen.

HeinOnline -- 1997 vol. I 95 1997

(ii) standards for the protection of aquatic life do not apply to ground water.

(3) review, from time to time at intervals of not more than 3 years and, to the extent permitted by this chapter, revise established classifications of waters and adopted standards of water quality;

(4) adopt rules governing the granting of mixing zones, requiring that mixing zones granted by the department be specifically identified and requiring that mixing zones have:

(a) the smallest practicable size;

(b) a minimum practicable effect on water uses; and

(c) definable boundaries;

(5) adopt rules implementing the nondegradation policy established in 75-5-303, including but not limited to rules that:

(a) provide a procedure for department review and authorization of degradation;

(b) establish criteria for the following:

(i) determining important economic or social development; and

(ii) weighing the social and economic importance to the public of allowing the proposed project against the cost to society associated with a loss of water quality;

(c) establish criteria for determining whether a proposed activity or class of activities, in addition to those activities identified in 75-5-317, will result in nonsignificant changes in water quality for any parameter in order that those activities are not required to undergo review under 75-5-303(3). These criteria must be established in a manner that generally:

(i) equates significance with the potential for harm to human health or the environment;

(ii) considers both the quantity and the strength of the pollutant;

(iii) considers the length of time the degradation will occur;

(iv) considers the character of the pollutant so that greater significance is associated with carcinogens and toxins that bioaccumulate or biomagnify and lesser significance is associated with substances that are less harmful or less persistent.

(d) provide that changes of nitrate ~~[as nitrogen]~~ *as nitrogen* in ground water are nonsignificant if the discharge will not cause degradation of surface water and the predicted concentration of nitrate ~~[as nitrogen]~~ *as nitrogen* at the boundary of the ground water mixing zone does not exceed:

(i) 7.5 milligrams per liter for nitrate ~~[as nitrogen]~~ *as nitrogen* sources other than domestic sewage;

(ii) 5.0 milligrams per liter for domestic sewage effluent discharged from a conventional septic system;

(iii) 7.5 milligrams per liter for domestic sewage effluent discharged from a septic system using level two treatment, which must be defined in the rules; or

(iv) 7.5 milligrams per liter for domestic sewage effluent discharged from a conventional septic system in areas where the ground water nitrate ~~[as nitrogen]~~ *as nitrogen* level exceeds 5.0 milligrams per liter primarily from sources other than human waste.

(6) to the extent practicable, ensure that the rules adopted under subsection (5) establish objective and quantifiable criteria for various parameters. These criteria must, to the extent practicable, constitute guidelines for granting or denying applications for authorization to degrade high-quality waters under the policy established in 75-5-303(2) and (3).

(7) adopt rules to implement this section."

**Section 2. Severability.** If a part of [this act] is invalid, all valid parts that are severable from the invalid part remain in effect. If a part of [this act] is invalid in one or more of its applications, the part remains in effect in all valid applications that are severable from the invalid applications.

**Section 3. Retroactive applicability.** [This act] applies retroactively, within the meaning of 1-2-109, to April 4, 1995.

**Section 4. Effective date.** [This act] is effective on passage and approval.

remove the danger. Assistance may include but is not limited to rescue, fire, police, medical, communication, and transportation services and facilities to cope with problems which require use of special equipment, trained personnel, or personnel in large numbers not locally available.

Article II

Article I, section 10, of the Constitution of the United States permits a state to enter into an agreement or compact with another state, subject to the consent of congress. Congress, through enactment of 50 U.S.C. 2281(g) and 2283 *(now repealed)* and the executive branch, by issuance of Executive Orders No. 10186 of December 1, 1950, encourages the states to enter into emergency, disaster, and civil defense mutual aid agreements or pacts.

Article III

It is agreed by participating states that the following conditions will guide implementation of the compact:

(1) Participating states through their designated officials are authorized to request and receive assistance from a participating state. Requests will be granted only if the requesting state is committed to the mitigation of the emergency and other resources are not immediately available.

(2) Requests for assistance may be verbal or in writing. If the request is made by other than written communication, it must be confirmed in writing as soon as practical after the request. A written request shall provide an itemization of equipment and operators, types of expertise, and personnel or other resources needed. Each request must be signed by an authorized official.

(3) Personnel and equipment of the aiding state made available to the requesting state shall, whenever possible, remain under the control and direction of the aiding state. The activities of personnel and equipment of the aiding state must be coordinated by the requesting state.

(4) An aiding state has the right to withdraw some or all of its personnel and equipment whenever the personnel and equipment are needed by that state. Notice of intention to withdraw should be communicated to the requesting state as soon as possible.

Article IV

(2) Any state rendering aid pursuant to this compact must be reimbursed by the state receiving such aid for any damage to, loss of, or expense incurred in the operation of any equipment used in responding to a request for aid, and for the cost incurred in connection with such requests.

(3) Any state rendering aid pursuant to this compact must be reimbursed by the state receiving such aid for the cost of compensation and death benefits to injured officers, agents, or employees and their dependents or representatives if such officers, agents, or employees sustain injuries or are killed while rendering aid pursuant to this arrangement and such payments are made in the same

manner and on the same terms as if the injury or death were sustained within the aiding state.

Article V

(1) All privileges and immunities from liability, exemptions from law, ordinances, and rules and all pension, disability relief, workers' compensation, and other benefits that apply to the activity of officers, agents, or employees when performing their respective functions within the territorial limits of their respective political subdivisions apply to them to the same extent while engaged in the performance of any of their functions and duties extraterritorially under the provisions of this compact.

(2) All privileges and immunities from liability, exemptions from law, ordinances, and rules and workers' compensation and other benefits that apply to duly enrolled or registered volunteers when performing their respective functions at the request of their state and within its territorial limits apply to the same extent while performing their functions extraterritorially under the provisions of this compact. Volunteers may include but are not limited to physicians, surgeons, nurses, dentists, structural engineers, and trained search and rescue volunteers.

(3) The signatory states, their political subdivisions, municipal corporations, and other public agencies shall hold harmless the corresponding entities and personnel thereof from the other state with respect to the acts and omissions of its own agents and employees that occur while providing assistance pursuant to the common plan.

(4) Nothing in this arrangement may be construed as repealing or impairing any existing interstate mutual aid agreements.

(5) Upon enactment of this compact by two or more states, and annually by each January 1 thereafter, the participating states will exchange with each other the names of officials designated to request and provide services under this arrangement. In accordance with the cooperative nature of this arrangement, it is permissible and desirable for the states to exchange operational procedures to be followed in requesting assistance and reimbursing expenses.

(6) This compact becomes effective and is binding upon the states so acting when it has been enacted into law by any two states. Thereafter, this compact becomes effective and binding as to any other state upon similar action by such state.

(7) This compact remains binding upon a party state until it enacts a law repealing the compact and providing for the sending of formal written notice of withdrawal from the compact to the appropriate officials of all other party states. An actual withdrawal may not take effect until the 30th consecutive day after the notice has been sent. Such withdrawal does not relieve the withdrawing state from its obligations assumed under this compact prior to the effective date of withdrawal."

For purposes of this subsection (2)(b)(ii)(B), for agency liquor stores or employee-operated state liquor stores that were operating June 30, 1994, the weighted average discount ratio is the ratio between an agency liquor store's or the employee-operated state liquor store's full case discount sales divided by the agency liquor store's or employee-operated state liquor store's gross sales, based on fiscal year 1994 reported sales, times the state discount rate for case lot sales, as provided in 16-2-201, divided by the state discount rate for full case lot sales in effect on June 30, 1994. For all other stores that are placed in service after June 30, 1994, the weighted average discount ratio is the average ratio in fiscal year 1994 for similar sized stores for 1 year of operation. ~~Thereafter, the~~ *The* weighted discount ratio must be computed on the store's first 12 months of operation.

(C) All liquor purchased from the state liquor warehouse by an agency liquor store must be paid for within 60 days of the date on which the department invoices the liquor to the agency liquor store.

(c) An agency liquor store may sell table wine at retail for off-premises consumption.

HeinOnline -- 1997 vol. I 168 1997

(a) a 10% commission for agencies in communities with less than 3,000 in population, unless adjusted pursuant to subsection (6) or (8);

(b) a commission established by competitive bidding unless adjusted pursuant to subsection (6) or (8) for agencies in communities with 3,000 or more in population.

(5) An agency franchise agreement must:

(a) be effective for a 10-year period and may be renewed every 10 years if the requirements of the agency franchise agreement have been satisfactorily performed;

(b) require the agent to maintain comprehensive general liability insurance and liquor liability insurance throughout the term of the agency franchise agreement in an amount established by the department of administration. The insurance policy must:

(i) declare the department as an additional insured; and

(ii) hold the state harmless and agree to defend and indemnify the state in a cause of action arising from or in connection with the agent's negligent acts or activities in the execution and performance of the agency franchise agreement.

(c) provide that upon termination by the department for cause or upon mutual termination, the agent is liable for any outstanding liquor purchase invoices. If payment is not made within the appropriato time, the department may immediately repossess all liquor inventory, wherever located.

(6) (a) The commission percentage that the department pays the agent under an agency franchise agreement may be reviewed on July 1, 1998, and every 3 years thereafter at the request of either party. If the agent concurs, the department may adjust the commission percentage to be paid during the remaining term of the agency franchise agreement or until the next time the commission percentage is reviewed, if that is sooner than the term of the agency franchise agreement, to a commission percentage that is equal to the average commission percentage being paid agents with similar sales volumes if:

(i) the agent's commission percentage is less than the average; and

(ii) all the requirements of the agency franchise agreement have been satisfactorily performed.

(b) The adjusted commission percentage determined under subsection (6)(a) may be greater than the average commission paid agents with similar sales volume:

(i) if the agent demonstrates that:

(A) the agent has experienced cost increases that are beyond the agent's control, including but not limited to increases in the federally established minimum wage or escalation in prevailing rent; and

(B) the average commission percentage is insufficient to yield net income commensurate with net income experienced before the cost increases occurred; and

(ii) if the department demonstrates that it is unable to indicate adjustments in the requirements specified in the agent's franchise agreement that will eliminate the impact of cost increases.

(7) The liability insurance requirement may be reviewed every 3 years after July 1, 1995, at the request of either the agent or the department. If the agent concurs, the department may adjust the requirements to be effective during the remaining term of the agency franchise agreement if the adjustments adequately protect the state from risks associated with the agent's negligent acts or activities in the execution and performance of the agency franchise agreement. The amount of liability insurance coverage may not be less than the minimum requirements of the department of administration.

(8) (a) Except as provided in subsection (8)(b), an agency franchise agreement must be renewed for additional 10-year periods if the agent has satisfactorily performed all the requirements of the agency franchise agreement. Except for establishing the new term and except for a commission percentage that may be negetiated as provided in subsection (8)(b), changes in the agency franchise agreement as a result of a renewal may not be made unless the agent and the department mutually agree.

(b) If at least 90 days prior to the expiration of a 10-year agency franchise agreement, the department determines that an adjustment of the commission percentage paid to the agent is in the best interests of the state, the department shall notify the agent of that determination.

(c) If the agent does not concur with the department's commission percentage adjustment, the department shall advertise for bids for the agency franchise at the adjusted commission percentage, subject to the provisions of this chapter. If bids from persons who meet the criteria provided in this chapter are received by the department for the agency franchise at the adjusted commission percentage, the agent under the existing franchise agreement has a preference right to renew the franchise agreement by concurring in the adjusted commission percentage.

(d) If the agent under the existing franchise agreement declines to exercise the preference right under subsection (8)(c), the department shall enter into an agency franchise agreement as provided in this chaptor with a person who accepted the adjusted commission percentage.

(e) If the agent exercises the preference right and believes the adjusted commission percentage to be inadequate or not in the best interests of the state, the agent may request an administrative hearing. The request must contain a statement of reasons why the agent believes the commission percentage to be inadequate or not in the state's best interests. The department shall grant the request for a hearing if it determines that the statement indicates evidence that

the adjusted commission percentage is inadequate or not in the state's best interests. The department may, after the hearing, adjust the commission percentage if the agent shows that the commission percentage is inadequate or not in the best interests of the state. If the department increases the commission percentage rate, the department shall set forth its findings and conclusions in writing and inform the agent and the other persons who offered to enter into an agency agreement at the adjusted commission rate.

(9) (a) The department may terminate an agency franchise agreement if the agent has not satisfactorily performed the requirements of the agency franchise agreement because the agent:

(v) fails to comply with the express terms of the agency franchise agreement.

(b) The department shall give an agent 30 days' notice of its intent to terminate the agency franchise agreement for cause and specify the unmet requirements. The agent may contest the termination and request a hearing within 30 days of the date of notice. If a hearing is requested, the department shall suspend its termination order until after a final decision has been made pursuant to the Montana Administrative Procedure Act.

(c) In the case of failure to make timely payments to the department for liquor purchased, the department may terminate the agency franchise agreement and immediately repossess any liquor purchased and in the possession of the agent. If an agency franchise agreement is terminated, the agent may contest the termination and request a hearing within 30 days of the department's repossession of the liquor. The agency *liquor* store shall remain closed until a final decision has been reached following a hearing held pursuant to the Montana Administrative Procedure Act.

(10) An agency franchise agreement may be terminated upon mutual agreement by the agent and the department.

(11) An agent may assign an agency franchise agreement to a person who, upon approval of the department, is named agent in the agency franchise agreement, with the rights, privileges, and responsibilities of the original agent for the remaining term of the agency franchise agreement. (2) (a) When the expenditure of an appropriation from a fund designated in 17-2-102(1)(a) through (1)(c) is necessary and the cash balance in the accounting entity from which the appropriation was made is insufficient, the department of

HeinOnline -- 1997 vol. I 173 1997

administration may authorize a temporary loan, bearing no interest, of unrestricted money from other accounting entities if there is reasonable evidence that the income will be sufficient to repay the loan within 1 calendar year and if the loan is recorded in the state accounting records. An accounting entity receiving a loan or an accounting entity from which a loan is made may not be so impaired that all proper demands on the accounting entity cannot be met even if the loan is extended.

(b) (i) When an expenditure from a fund or subfund designated in 17-2-102(1)(d)~~(i)(A) through (1)(d)(vi)~~ is necessary and the cash balance in the fund or subfund from which the expenditure is to be made is insufficient, the commissioner of higher education may authorize a temporary loan, bearing interest as provided in subsection (4), of money from the agency's other funds or subfunds if there is reasonable evidence that the income will be sufficient to repay the loan within 1 calendar year and if the loan is recorded in the state accounting records. (ii) One accounting entity within each fund or subfund designated in 17-2-102(1)(d)~~(i)(A) through (1)(d)(vi)~~ must be established for the sole purpose of recording loans between the funds or subfunds. (c) A loan made under subsection (2)(a) or (2)(b) must be repaid within 1 calendar year of the date on which the loan is approved unless it is extended under subsection (3) or by specific legislative authorization.

(3) Under unusual circumstances, the director of the department of administration or the board of regents may grant one extension for up to 1 year for a loan made under subsection (2)(a) or (2)(b). The director or board shall prepare a written justification and proposed repayment plan for each loan extension authorized and shall furnish a copy of the written justification and proposed repayment plan to the house appropriations and senate finance and claims committees at the next legislative session.

(4) Any loan from the current unrestricted subfund to funds designated in 17-2-102(1)(d)(i)(D) and (1)(d)(ii) through (1)(d)(vi) must bear interest at a rate equivalent to the previous fiscal year's average rate of return on the board of investments' short-term investment pool. Except for investment earnings on restricted donations, all designated and restricted subfund investment earnings, other than investment earnings on student activity fees used to support student governments at units of the university system, are credited to the state general fund.

(5) If for 2 consecutive fiscal yearends a loan or an extension of a loan has been authorized to the same accounting entity as provided in subsection (2) or (3), the department of administration or the commissioner of higher education shall submit to the legislative finance committee by September 1 of the following fiscal year a written report containing an explanation as to why the second loan or extension was made, an analysis of the solvency of the accounting entity or accounting entities within the university fund or subfund, and a plan for repaying the loans.

HeinOnline -- 1997 vol. I 174 1997

(6) If for 2 consecutive fiscal yearends an accounting entity in a fund or subfund designated in 17-2-102(1)(d)~~(i) through (1)(d)(vi)~~ has a negative cash balance, the commissioner of higher education shall submit to the legislative finance committee hy September 1 of the following fiscal year a written report containing an explanation as to why the accounting entity has a negative cash balance, an analysis of the solvency of the accounting entity, and a plan to address any problems concerning the accounting entity's negative cash balance or solvency.

(7) (a) An accounting entity in a fund designated in 17-2-102(1)(a) through (1)(c) may not have a negative cash balance at fiscal yearend. The department of administration may, however, allow an accounting entity to carry a negative balance at any point during the fiscal year if the negative cash balance does not exist for more than 7 working days.

(b) (i) Except as provided in subsection (7)(b)(ii), a unit of the university system shall maintain a positive cash balance in the funds and subfunds designated in 17-2-102(1)(d)~~(i)(A) through (1)(d)(i)(D) and (1)(d)(ii) through (1)(d)(vi)~~.

(ii) If a fund or subfund inadvertently has a negative cash balance, the department of administration may allow the fund or subfund to carry the negative cash balance for no more than 7 working days. If the negative cash balance exists for more than 7 working days, a transaction may not be processed through the statewide accounting system for that fund or subfund.

(8) Notwithstanding the provisions of subsections (2) through (4), the department of administration may authorize loans to accounting entities in the federal and state special revenue funds with long-term repayment whenever necessary because of the timing of the receipt of agreed upon reimbursements from federal, private, or other governmental entity sources for disbursements made. The department of administration may approve the loans if the requesting agency can demonstrate that the total loan balance does not exceed total receivables from federal, private, or other governmental entity sources and receivables have been billed on a timely basis. The loan must be repaid under terms and conditions ~~as~~ *that* may be determined hy the department of administration or by specific legislative authorization."

**"82-4-232. Area mining required — bond — alternative plan.** (1) Area strip mining, a method of operation ~~which~~ *that* does not produce a bench or fill bench, is required where strip mining is proposed. All highwalls must be reduced and the steepest slope of the reduced highwall ~~shall~~ *may* be no greater than 20 degrees from the horizontal. Highwall reduction ~~shall~~ *must* be commenced at or beyond the top of the highwall and sloped to the graded spoil bank. Reduction, backfilling, and grading ~~shall~~ *must* eliminate all highwalls and spoil peaks. The area of land affected ~~shall~~ *must* be restored to the approximate original contour of the land. When directed by the department, the operator shall construct in the final grading ~~such~~ diversion ditches, depressions, or terraces ~~as~~ *that* will accumulate or control the water runoff. Additional restoration work may be required by the department according to rules adopted by the board.

(2) In addition to the backfilling and grading requirements, the operator's method of operation on steep slopes may be regulated and controlled according to rules adopted by the board. These rules may require any measure ~~whatsoever~~ to accomplish the purpose of this part.

(3) For coal mining on prime farmlands, the board shall establish by rule specifications for soil removal, storage, replacement, and reconstruction, and the operator ~~shall~~ *must* as a minimum be required to:

(a) segregate the A horizon of the natural soil, except where it can be shown that other available soil materials will create a final soil having a greater productive capacity; and if not ~~utilized~~ *used* immediately, stockpile this material separately from other spoil and provide needed protection from wind and water erosion or contamination by other acid or toxic material;

(b) segregate the B horizon of the natural soil, or underlying C horizon or other strata, or a combination of such horizons or other strata that are shown to be both texturally and chemically suitable for plant growth and that can be shown to be equally or more favorable for plant growth than the B horizon in sufficient quantities to create in the regraded final soil a root zone of comparable depth and quality to that which existed in the natural soil; and if not ~~utilized~~ *used* immediately, stockpile this material separately from other spoil and provide needed protection from wind and water erosion or contamination by acid or toxic material;

HeinOnline -- 1997 vol. I 339 1997

(c) replace and regrade the root zone material described in subsection (3)(b) with proper compaction and uniform depth over the regraded spoil material; and

(d) redistribute and grade in a uniform manner the surface soil horizon described in subsection (3)(a).

(4) All available topsoil ~~shall~~ *must* be removed in a separate layer, guarded from erosion and pollution, and kept in such a condition that it can sustain vegetation of at least the quality and variety it sustained prior to removal, provided that the oporator shall accord substantially the same treatment to any subsurface deposit of material that is capable, as determined by the department, of supporting surface vegetation virtually as well as the present topsoil. After the operation has been backfilled and graded, the topsoil or the best available subsurface deposit of material ~~which~~ *that* is best able to support vegetation ~~shall~~ *must* be returned as the top layer.

(5) As determined by rules of the board, time limits ~~shall~~ *must* be established requiring backfilling, grading, subsidence stabilization, water control, highwall reduction, topsoiling, planting, and revegetation to be kept current. All backfilling, subsidence stabilization, sealing, grading, and topsoiling ~~shall~~ *must* be completed before necessary equipment is moved from the operation.

(6) (a) The permittee may file a request with the department for the release of all or part of a performance bond or deposit. Within 30 days after any application for bond or deposit release has been filed with the department, the permittee shall submit a copy of an advertisement notice placed at least once a week for 4 successive weeks in a newspaper of general circulation in the locality of the prospecting or mining operation. The notice is considered part of any bond release application and must contain a notification of the precise location of the land affected, the number of acres, the permit and the date approved, the amount of the bond filed and the portion sought to be released, the type and appropriate dates of reclamation work performed, and a description of the results achieved as they relate to the permittee's approved reclamation plan. In addition, as part of any bond release application, the permittee shall submit copies of letters that the permittee has sent to adjoining property owners, local governmental bodies, planning agencies, and sewage and water treatment authorities or water companies in the locality of the operation, notifying them of the permittee's intention to seek release from the bond.

(b) Upon receipt of the request and copies of the notification made under subsection (6)(a), the department shall, within 30 days, conduct an inspection and evaluation of the reclamation work involved. In the evaluation, the department shall consider, among other things, the degree of difficulty in completing any remaining reclamation, whether pollution of surface and subsurface water is occurring, the probability of continuance or future occurrence of ~~such~~ *the* pollution, and the estimated cost of abating ~~such~~ *the* pollution. The department shall notify the permittee in writing of its decision to release or not to release all or part of the performance bond within 60 days of the filing of the request if no public hearing is held pursuant to subsection (6)(f) or, if a public hearing is held pursuant to that subsection, within 30 days ~~thereafter~~ *after the hearing*.

(c) The department may release the bond or deposit in whole or in part if it is satisfied the reclamation covered by the bond or deposit or portion ~~thereof~~ *of*

*the bond or deposit* has been accomplished as required by this part according to the following schedule:

(i) When the permittee completes the plugging, backfilling, regrading, and drainage control of a bonded area in accordance with the approved reclamation plan, the department shall release 60% of the hond or collateral for the applicahle permit area.

(ii) After revegetation has been established on the regraded lands in accordance with the approved reclamation plan, the department shall, for the period specified for operator responsibility of reestablishing revegetation, retain that amount of bond for the revegetated area that would be sufficient for a third party to cover the cost of reestahlishing revegetation. Whenever a silt dam is to be retained as a permanent impoundment, the portion of bond may be released under this subsection (6)(c)(ii) if provisions for sound future maintenance by the operator or the landowner have been made with the department. No part of the bond or deposit may be released under this subsection (6)(c)(ii):

(A) as long as the lands to which the release would be applicable are contributing suspended solids to streamflow or runoff outside tlie permit area in excess of the requirements of 82-4-231(10)(k); or

(B) before soil productivity for prime farm lands to which tlie release would be applicable has returned to equivalent levels of yield as noamined land of the same soil type in the surrounding area under equivalent management practices, as determined from the soil survey.

(iii) When the permittee has successfully completed all prospecting, mining, and reclamation activities, the department shall release tlie remaining portion of tlie bond, but not before the expiration of the period specified for responsibility and not until all reclamation requirements of this part are fully met.

(d) If the department disapproves the application for release of the bond or *a* portion ~~thereof~~ *of the bond*, it shall notify the permittee, in writing, stating the reasons for disapproval and recommending corrective actions necessary to secure the release and allowing opportunity for a public hearing.

(e) When an application for total or partial bond release is filed with the department, it shall notify tlie municipality in which a prospecting or mining operation is located by certified mail at least 30 days prior to the release of all or a portion of the bond.

(f) Any person with a valid legal interest that might be adversely affected by release of the hond or the responsible officer or head of any federal, state, or local gevernmental agency ~~which~~ *that* has jurisdiction by law or special expertise with respect to any environmental, social, or economic impact involved in the operation or is authorized to develop and enforce environmental standards with respect to ~~such~~ *the* operations has the right to file written ohjections to the proposed release from bond to tlie department within 30 days after the last publication of the notice provided for in subsection (6)(a). If written objections are filed and a hearing *is* requested, the department shall inform all tlie interested parties of the time and place of the hearing and, within 30 days of the request for ~~such~~ *the* hearing, hold a public hearing in the locality of the operation proposed for bond release. The date, time, and location of the public hearing must be

HeinOnline -- 1997 vol. I 341 1997

advertised by the department in a newspaper of general circulation in the locality for 2 consecutive weeks, and the hearing must be held in the locality of the oporation proposed for bond release or at the state capital, at the option of the objector, within 30 days of the request for ~~such~~ *the* hearing.

(g) Without prejudice to the rights of the objectors or the permittee or the responsibilities of the department pursuant to this section, the department may establish an informal conference to resolve ~~such~~ written objections.

(7) An operator may propose alternative plans other than backfilling, grading, highwall reduction, topsoiling, or seeding to a permanent diverse vegetative cover if the restoration will be consistent with the purpose of this part. These plans ~~shall~~ *must* be submitted to the department, and after consultation with the landowner, if the plans are approved by the department and complied with within the time limits ~~as may be~~ determined by the department as being reasonable for carrying out the plans, the backfilling, grading, highwall reduction, topsoiling, or revegetation requirements of this part may be modified by the department. An operator who proposes alternative plans that will affect an existing permit shall comply with the notice requirement of 82-4-222~~(1)(k)~~*(1)(l)*.

(8) If alternate revegetation is proposed, a management plan must be submitted showing how the area will be ~~utilized~~ *used* and any data necessary to show that the alternate postmining land use can be achieved. Any plan must require the operation ~~as~~ *at* a minimum to:

(a) restore the land affected to a condition capable of supporting the use ~~which~~ *that* it was capable of supporting prior to any mining operation or to a higher or better use of which there is a reasonable likelihood, if the use or uses do not present any actual or probable threat of water diminution or pollution, and if the pormit applicant's proposed land use following reclamation is not ~~deemed~~ *determined* to be impractical, unreasonable, or inconsistent with applicable land use policies and plans, would not involve unreasonable delay in implementation, and would not violate federal, stato, or local law; and

(b) prevent soil erosion to the extent achieved prior to mining."

or interruption of the water supply, proximately resulting from strip mining or underground mining.

(2) Prima facie evidence of injury in a suit under this ~~subsection~~ *section* is established by the removal of coal or disruption of overlying aquifer from designated ground water areas as prescribed in Title 85, chapter 2, part 5. If the area is not a designated ground water area, a showing that the coal or overlying strata is an aquifer in that geographical location and that the coal or the overlying strata has been removed or disrupted shifts the burden to *the* defendant (operator) to show that *the* plaintiff's (owner's) water supply was not injured thereby.

(3) An owner of water rights adversely affected may file a complaint detailing the loss of ~~his~~ water in quality and quantity with the department. Upon receipt of this complaint the department shall:

(a) investigate the complaint using all available information including monitoring data gathered at the mine site;

(b) require the defendant (operator) to install ~~such~~ monitoring wells or other practices that may be needed to determine the cause of water loss, if there is a loss, in terms of quantity or quality;

(c) issue within 90 days a written finding specifying the cause of the water loss, if there is a loss, in terms of quantity or quality;

(d) order the mining operator in compliance with chapter 2 of Title 85 to replace the water immediately on a temporary basis to provide the needed water and within a reasonable time, replace the water in like quality, quantity, and duration, if the loss is caused by the surface coal mining operation; and

(e) order the suspension of the operator's permit for failure to replace the water, until such time as the operator provides substitute water.

(4) A servient tract of land is not bound to receive surface water contaminated by strip mining or underground mining on a dominant tract of land, and the owner of the servient tract may sue an operator to recover the damages proximately resulting from the natural drainage from the dominant tract of surface waters contaminated by strip mining or underground mining on the dominant tract.

(5) This section and 82-4-252 do not create, modify, or affect any right, liability, or remedy other than as expressly provided."

After the hearing or after the time for requesting a hearing has expired, the department shall make findings of fact and shall issue a written decision as to the occurrence of the violation and the amount of penalty warranted and shall order the payment of a penalty in that amount. The person or operator shall remit the amount of the penalty within 30 days of the order. STATEMENT OF INTENT

This bill requires a statement of intent because it requires rulemaking by the board of funeral service. The board shall adopt rules setting forth the information that must be included in an application to establish or expand a cemetery, rules setting forth the information that must be included in an application for a permit for an existing cemetery, rules determining the fee schedules for the permits required by [sections 3 through 16], rules determining the information required to build structures on a cemetery covered by [sections 3 through 16], and rules setting forth the information that must be included in the reports submitted to the board by a cemetery company covered under [sections 3 through 16]. Recognizing the sensitive nature of cemetery services and the potential for abuse to those in need of cemetery services, the legislature considers it necessary to provide guidelines for the operation of for-profit cemeteries. However, protection of the public must be balanced against the right of a business to conduct its affairs in a private manner. All rules promulgated by the board must be narrowly tailored to require only such disclosure as is necessary to effectuate the intent of this legislation without violating the people's constitutional right to know. The intent of this legislation includes ensuring that for-profit cemeteries are operated in a fiscally sound and prudent manner to protect the public's interest in well-maintained cemeteries, both now and in the future.

*Be it enacted by the Legislature of the State of Montana:*

**Section 1.** Section 2-15-1853, MCA, is amended to read:

Each employer's rate for a calendar year ~~shall~~ *must* be determined on the basis of the employer's record as of October 1 of the preceding calendar year.

(2) In making the classification, each eligible and deficit employer's contribution rate is determined in the manner set forth below:

(a) Each employer is given an "experience factor", which is contributions paid since October 1, 1981, minus benefits charged on each employer's account since October 1, 1981, divided by the employer's average annual taxable payroll rounded to the next lower dollar amount for the 3 fiscal years immediately preceding the computation date. The computation of the "experience factor" ~~shall~~ *must* be to six decimal places.

Each group ~~shall~~ *must* be identified by the rate class number listed in the table ~~which~~ *that* represents the percentage limits of each group. Each employer on the schedules is assigned that contribution rate opposite that employer's rate class for the tax schedule in effect for the taxable year.

(4) (a) If the grouping of rate classes requires the inclusion of exactly one-half of an employer's taxable payroll, the employer is assigned the lower of the two rates designated for the two classes in which the halves of that employer's taxable payroll are ~~so~~ required.

(b) If the group of rate classes requires the inclusion of a portion other than exactly one-half of an employer's taxable payroll, the employer is assigned the rate designated for the class in which the greater part of that employer's taxable payroll is ~~so~~ required.

(c) If one or more employers on the schedules have experience factors identical to that of the last employer included in a particular rate class, all such

HeinOnline -- 1997 vol. I 419 1997

employers are included in and assigned the contribution rate specified for ~~such~~ *the* class, notwithstanding the provisions of 39-51-1214.

(5) If the taxable payroll amount, ~~or~~ the experience factor, or both ~~such taxable payroll amount and experience factor~~ of any eligible or deficit employer listed on the schedules is changed, the employer is placed in that position on the schedules ~~which~~ *that* the employer would have occupied had that employer's taxable payroll amount or experience factor as changed been used in determining that employer's position in the first instance~~, but such~~. *However, the* change does not affect the position or rate classification of any other employer listed on the schedules and does not affect the rate determination for previous years.

(6) An employer who has not filed all required payroll reports or paid all taxes, penalties, and interest due by the cutoff date must be assigned ~~the maximum~~ *a* contribution rate in effect for the taxable year for ~~his~~ *the employer's* classification as an eligible, deficit, or new employer, *plus an additional assessment of 50% of the employer's assigned contribution rate, rounded to the nearest 1/10 of 1%.*"

(3) "Tractor", as specified in this section, means any motor vehicle, except a passenger car, that is used for towing a trailer or semitrailer.

(4) If ~~any~~ *a* motor vehicle, housetrailer, trailer, or semitrailer is originally registered 6 months after the time of registration as set by law, the registration

or license fee for the remainder of the year is one-half of the regular fee *except for trailers or semitrailers registered as provided in 61-3-721(6).*

(5) An additional fee of $5.25 a year for each registration of a vehicle, except trailers and semitrailers registered in other jurisdictions ~~and registered~~ through a proportional registration agreement, must be collected as a registration fee. Revenue from this fee must be forwarded by the respective county treasurers to the state treasurer for deposit in the general fund. The department shall distribute 25 cents from the motor vehicle registration fee for payment of supplemental benefits provided for in 19-6-709.

(6) A fee of $2 for each set of new number plates must be collected when number plates provided for under 61-3-332(3) are issued. Revenue from this fee must be deposited as provided in subsection (5).

(7) The provisions of this part with respect to the payment of registration fees do not apply to and are not binding upon motor vehicles, trailers, semitrailers, or tractors owned or controlled by the United States of America or any state, county, city, or special district, as defined in 18-8-202.

(8) The provisions of this section relating to the payment of registration fees or new number plate fees do not apply when number plates are transferred to a replacement vehicle under 61-3-317, 61-3-332, or 61-3-335. (See compiler's comments for contingent termination of certain text.)"

**Section 2.** Section 61-3-332, MCA, is amended to read:

**"61-3-332. Number plates.** (1) A motor vehicle that is driven upon the streets or highways of Montana must display both front and rear number plates, bearing the distinctive number assigned to the vehicle. The number plates are in 10 series: one series for owners of motorcars, one for owners of motor vehicles of the motorcycle or quadricycle type, one for trailers, one for trucks, one for dealers in vehicles of the motorcycle or quadricycle type that bear the distinctive letters "MCD" or the letters "MC" and the word "DEALER", one for franchised dealers in new motorcars (including trucks and trailers) or new and used motorcars (including trucks and trailers) that bear the distinctive letter "D" or the word "DEALER", one for dealers in used motorcars only (including used trucks and trailers) that bear the distinctive letters "UD" or the letter "U" and the word "DEALER", one for dealers in trailers and/or semitrailers (new or used) that bear the distinctive letters "DTR" or the letters "TR" and the word "DEALER", one for dealers in recreational vehicles that bear the distinctive lettors "RV" or the letter "R" and the word "DEALER", and one for special license plates. All markings for the various kinds of dealers' plates must be placed on the number plates assigned to the dealer, in the position that the department designates.

(2) All number plates for motor vehicles must be issued for a minimum period of 4 years, bear a distinctive marking, and be furnished by the state. In years when number plates are not issued, the department shall provide nonremovable stickers bearing appropriate registration numbers that must be affixed to the license plates in use.

(3) Subject to the provisions of this section, the department shall create a new design for number plates as provided in this section.

HeinOnline -- 1997 vol. I 437 1997

(4) In the case of motorcars and trucks, plates must be of metal 6 inches wide and 12 inches in length. The outline of the state of Montana must be used as a distinctive border on the license plates, and the word "Montana" and the year must be placed across the plates. Registration plates must be treated with a reflectorized background material according to specifications prescribed by the department.

(5) The distinctive registration numbers must begin with a number one or with a letter-number combination, such as "A 1" or "AA 1", or any other similar combination of letters and numbers. The distinctive registration number or letter-number combination assigned to the vehicle must appear on the plate preceded by the number of the county and appearing in horizontal order on the same horizontal baseline. The county number must be separated from the distinctive registration number by a separation mark unless a letter-number combination is used. The dimensions of the numerals and letters must be determined by the department, and all county and registration numbers must be of equal height.

(6) For the use of tax-exempt motor vehicles, in addition to the markings provided in this section, number plates must bear the following distinctive markings:

(a) For vehicles owned by the state, the department may designate the prefix number for the various state departments. All numbered plates issued to state departments must bear the words "State Owned", and a year number may not be indicated on the plates because these numbered plates are of a permanent nature and will be replaced by the department only when the physical condition of numbered plates requires it.

(b) For vehicles that are owned by the counties, municipalities, and special districts, as defined in 18-8-202, organized under the laws of Montana and not operating for profit, and that are used and operated by officials and employees in the line of duty and for vehicles on loan from the United States government or the state of Montana to, or owned by, the civil air patrol and used and operated by officials and employees in the line of duty, there must be placed on the number plates assigned, in a position that the department may designate, the letter "X" or the word "EXEMPT". Distinctive registration numbers for plates assigned to motor vehicles of each of the counties in the state and those of the municipalities and special districts that obtain plates within each county must begin with number one and be numbered consecutively. Because these number plates are of a permanent nature, they are subject to replacement by the department only when the physical condition of the number plates requires it and a year number may not be displayed on the number plates.

(7) On all number plates assigned to motor vehicles of the truck and trailer type, other than tax-exempt trucks and tax-exempt trailers, there must appear the letter "T" or the word "TRUCK" on plates assigned to trucks and the letters "TR" or the word "TRAILER" on plates assigned to trailers and housetrailers. The letters "MC" or the word "CYCLE" must appear on plates assigned to vehicles of the motorcycle or quadricycle type.

(8) Number plates issued to a passenger car, truck, trailer, or vehicle of the motorcycle or quadricycle type may be transferred only to a replacement passenger car, truck, trailer, or motorcycle- or quadricycle-type vehicle. A

Any new counties must be assigned numbers by the department as they may be formed, beginning with the number 57.

(10) Each type of special license plate approved by the legislature, except collegiate license plates authorized in 61-3-463, must be a separate series of plates, numbered as provided in subsection (5), except that the county number must be replaced by a nonremovable design or decal designating the group or organization to which the applicant belongs. Unless otherwise specifically stated in this section, the special plates are subject to the same rules and laws as govern the issuance of regular license plates, must be placed or mounted on a vehicle owned by the person who is eligible to receive them, and must be removed upon sale or other disposition of the vehicle. The special license plates must be issued to national guard members, former prisoners of war, handicapped persons, reservists, disabled veterans, survivors of the Pearl Harbor attack, veterans of the armed services, or veterans of the armed services who were awarded the purple heart medal, who comply with the following provisions:

The commanding officer of each armed forces reserve unit shall issue to each eligible member of the reserve unit a certificate authorizing the issuance of special license plates, numbered in sets of two with a different number on each set. The member shall surrender the plates to the department upon becoming ineligible to use them.

(c) (i) A resident of Montana who is a veteran of the armed forces of the United States and who is 100% disabled because of an injury that has been determined by the department of veterans affairs to be service-connected may, upon presentation to the department of proof of the 100% disability, be issued:

The notice must specify the provision of this part, the rule, or the condition of approval alleged to have been violated and the facts alleged to constitute a violation. The notice must include an order to take necessary corrective action within a reasonable period of time. The time period must be stated in the order. Service by mail is complete on the date of filing.

(2) If the alleged violator does not request a hearing before the board within 30 days of the date of service, the order becomes final. Failure to comply with a final order may subject the violator to an action commenced pursuant to 75-6-104, 75-6-113, or 75-6-114.

(3) If the alleged violator requests a hearing before the board within 30 days of the date of service, the board shall schedule a hearing. After the hearing is held, the board may:

(a) affirm or modify the department's order issued under subsection (1) if the board finds that a violation has occurred; or

(b) rescind the department's order if the board finds that a violation has not occurred.

(4) An order issued by the department or the board may set a date by which the violation must cease and set a time limit for action to correct a violation.

(5) As an alternative to issuing an order pursuant to subsection (1), the department may:

(a) require the alleged violator to appear before the board for a hearing, at a time and place specified in the notice, to answer the charges complained of; or

(b) initiate an action under 75-6-111(2), 75-6-113, or 75-6-114.

The department shall register all federally approved pesticides, and those registered are subject to registration fees

HeinOnline -- 1997 vol. I 450 1997

and all other provisions of this chapter. All registrations of pesticides expire on December 31 following the date of issuance unless otherwise terminated.

(2) The applicant for registration shall file with the department a statement that includes:

(a) the name and address of the applicant and the name and address of the person whose name will appear on the lahel, if other than the registrant;

(b) a complete copy of the label of the pesticide, the United States environmental protection agency registration number if the pesticide is registered, and a statement of all claims to be made for it, including directions for use;

(c) the trade and chemical name of the pesticide;

(d) if requested by the department, a full description of tests made and the results upon which the claims are based. In the case of renewal of registration, a statement is required only for information that is different from that furnished when the pesticide was registered or last reregistered.

(3) A pesticide imported into the state that is subject to and has been registered under the provisions of a federal act providing for the registration of pesticides must be registered in the state. However, the state may restrict the sale or use and application of the pesticide by type of dealer, applicator, time, and place and may establish special registrations of pesticides as outlined in 80-8-105(3) and in subsection (8) of this section. The annual registration fee must also be paid, and registration information required by the department must be provided.

(4) The applicant shall pay an annual fee of $70 for each pesticide registered. A registration fee is not required to register a federally approved experimental use permit.

(5) The department may require the submission of the complete formula and certified analytical standards of any pesticido. If it appears to the department that the composition of the pesticide warrants the proposed claims for it and if the pesticide, its labeling, and other material required to be submitted comply with the requirements of 80-8-202, the department shall register the pesticide.

(6) If it does not appear to the department that the pesticide warrants the proposed claims for it or if the pesticide, its labeling, and other material required to be submitted do not comply with this chapter, the department shall notify the applicant of the manner in which the pesticide, labeling, or other material required to be submitted fails to comply with the chapter to provide the applicant an opportunity to make the necessary corrections. If the applicant does not make the corrections upon receipt of the notice, the department may refuse to register the pesticide. The department may suspend or cancel the registration of a pesticide whenever it does not appear that the pesticide or its labeling comply with this chapter or whenever scientific evidence proves that the pesticide endangers humans or the general environment afforded protection under 80-8-105(3)(a). When an application for registration is refused or the department proposes to suspend or cancel a registration, the registrant may pursue administrative remedies under the Montana Administrative Procedure Act and rules of the department.

HeinOnline -- 1997 vol. I 451 1997

(7) Registration is not required in the case of a pesticide shipped from one plant in the state to another plant in the state by the same person.

(8) (a) The department, the department of ~~environmental quality~~ *public health and human services*, and the department of fish, wildlife, and parks shall review all applications for registration of an experimental-use permit or a registration for special local needs. The applicant shall pay a one-time fee of $70 for a special local need or experimental-use permit registration. The departments shall ~~utilize~~ *use* the same requirements and standards for reviewing registrations established by the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, and regulations adopted under the act. The department shall provide the departments of ~~environmental quality~~ *public health and human services* and fish, wildlife, and parks with a complete copy of the application, related correspondence, and a statement of the department's proposed action on the application. The department, the department of ~~environmental quality~~ *public health and human services*, and the department of fish, wildlife, and parks shall approve or disapprove the application within 10 days after the receipt of the application. If the department, the department of ~~environmental quality~~ *public health and human services*, and the department of fish, wildlife, and parks are in agreement with the proposed registration, the department shall issue the registration.

(b) The department shall establish a time and place for an interagency conference for the purposes of resolving the registration of any pesticide or device. If two of the departments approve the proposed registration, the department shall issue the registration.

(c) The registrant applying for registration must be notified as to proposed changes in registration. If the departments cannot resolve the proposed registration following the interagency conference, the registrant may request a joint administrative hearing before the departments of agriculture, ~~environmental quality~~ *public health and human services*, and fish, wildlife, and parks.

(d) Following the interagency conference and, if requested, the administrative hearing, if the proposed registration of a pesticide or device has not been resolved, the department of agriculture shall appoint an advisory council as outlined in 80-8-108 to resolve by majority vote the registration of any pesticide. The advisory council's recommendations on the registration must be accepted by the departments and implemented by the department of agriculture.

(9) (a) Pesticides registered under any federal law when canceled for sale and use in total or in part by a federal agency respensible for registration are considered canceled in total or in part for sale and use in Montana. The cancellation is effective on the final date of sale or use allowed under the federal law and rules or orders of the federal agency. Except as provided in subsection (9)(b), if the federal cancellation allows existing stock to be used past the final date of cancellation, the sale or use in this state may not exceed 2 years. The department shall provide technical assistance to any person in possession of the products to ensure their proper disposal, relabeling, or removal.

(b) Pesticide products canceled under the Federal Insecticide, Fungicide, and Rodenticide Act, 7 U.S.C. 136a-1(i)(5) may be sold and used according to environmental protection agency labeling requirements or other requirements

Licensing of laboratories.** (1) To authorize a laboratory to submit analyses and reports to the department of environmental quality under Title 75, chapter 6, part 1, the department shall issue a license to any laboratory that intends to conduct analysis of public water supply systems and that files a license application, on a form furnished by the department, demonstrating that it meets the criteria for licensing established by department rules.

(2) A person aggrieved by a decision of the department to grant, deny, or revoke a license may appeal the decision under the contested case provisions of the Montana Administrative Procedure Act.

or commodity dealer for storage or sale, each warehouse operator or commodity dealer shall take a representative sample from each load of agricultural commodity delivered and preserve the sample in a moistureproof container with the owner's name marked on the container. A composite sample consisting of a minimum of 1 1/2 quarts or 1,050 grams of the representative sample must, upon written request of the depositor, be suhmitted directly to the state grain laboratory for analysis as to grade, dockage, protein, and other factors that the laboratory is able to analyze that affect the purchase price. The warehouse operator or commodity dealer shall retain a minimum of 1 1/2 quarts or 1,050 grams of the remaining sample for 60 days.

(2) If a request for a state grain laboratory analysis is not made pursuant to subsection (1) and the depositor, warehouse operator, or commodity dealer is dissatisfied with the results of a private analysis, the depositor, warehouse operator, or commodity dealer may appeal to the state grain laboratory. A FGIS appeal must be made within 10 working days of the state grain laboratory's analysis. The sample for FGIS appeal must be a portion of tbat agricultural commodity retained by the state grain laboratory when it conducted its analysis. The results on the state grain laboratory appeal sample are final and binding. In the absence of an appeal to FGIS or in the case of an agricultural commodity for which there are no FGIS standards, the state grain laboratory's analysis is final and binding.

(4) Each warehouse operator or commodity dealer shall post in a conspicuous place a placard, issued by the department, stating the procedures provided for in this section.

(5) All samples submitted for analysis are the property of the state grain laboratory and subject to its disposition.

(6) An agricultural commodity purchased for resale as seed is exempt from the requirements of this section.

(7) A producer of malting barley may by contract waive the right to submit a sample to the state grain laboratory provided in this section.

**Section 3. Coal severance tax bonds authorized.** (1) The legislature finds that Title 17, chapter 5, part 7, provides for the issuance of coal severance tax bonds for financing specific approved renewable resource projects as part of the state renewable resource grant and loan program. Available funds from previous sales of coal severance tax bonds, plus any additional principal amount on bonds as may be necessary, pursuant to the conditions in 85-1-605, as amended in House Bill No. 71, to fund emergency loans, as authorized and approved in accordance with 85-1-605(4), may also be used for the projects approved in [sections 1 through 8]. The board of examiners is authorized to issue coal

severance tax bonds in an amount not to exceed $24,976,536, of which $22,505,942 is to be used to finance the projects approved in [sections 1 and 2], $200,000 is to be used to finance additional loans in lieu of grants for projects listed in [section 1] (if grant funds are not sufficient), and up to $2,270,594 is to be used to establish a reserve for the bonds. Proceeds of the bonds are appropriated to the department of natural resources and conservation for financing the projects identified in [sections 1 and 2] and may be used as authorized in 85-1-605(4). Loans made under 85-1-605(4) must bear interest at the rate borne by the state bonds unless the legislature in a subsequent session provides for a lower interest rate, in which case the rate must be reduced to the rate specified by the legislature.

(2) In connection with the issuance of coal severance tax bonds, the board of examiners may pay the principal and interest on the bonds when due from the debt service account and in all other respects manage and use the funds within each special bond account for the benefit of the bonds. The board of examiners shall exercise its discretion to enbance the marketability of the bonds and to secure the most advantageous financial arrangements for the state.

(3) Earnings on bond proceeds prior to the completion of any loan must be allocated to the debt service account to pay the debt service on the bonds during this period. Earnings in excess of debt service, if any, must be allocated to the renewable resource grant and loan state special revenue account.

(4) Loan repayments from loans financed with coal severance tax bonds are pledged, dedicated, and appropriated to the debt service account in the state treasury for the benefit of bonds approved for loans under this section.

**Section 4. Creation of state debt — appropriation of coal severance tax — bonding provisions.** (1) Because [section 3] authorizes the creation of a state debt, a vote of two-thirds of the members of each house is required for enactment of [section 3].

(2) The legislature, through the enactment of this section by a vote of three-fourths of the members of each house of the legislature, as required by Article IX, section 5, of the Montana constitution, pledges, dedicates, and appropriates from the coal severance tax bond fund all money necessary for the payment of principal and interest not otherwise provided for on the coal severance tax bonds authorized by [section 3] to be issued pursuant to Title 17, chapter 5, part 7, and pursuant to the provisions of [sections 1 through 7] and the general resolution for this bond program that has been adopted by the board of examiners under the authority provided in Title 17, chapter 5, part 7.

**Section 5. Condition of loans.** (1) Disbursement of funds under [sections 1 through 8] for loans is subject to the following conditions that must be met by project sponsors:

(a) approval of a scope of work and budget for the project by the department of natural resources and conservation. Reductions in a scope of work or budget may not affect priority activities or improvements.

(b) documented commitment of other funds required for project completion;

HeinOnline -- 1997 vol. I 477 1997

(c) satisfactory completion of conditions described in the recommendations section of the project narrative in the renewable resource grant and loan program project evaluations and recommendations report for the 1999 biennium;

(d) execution of a loan agreement with the department; and

(e) accomplishment of other specific requirements considered necessary by the department to accomplish the purpose of the loan as evidenced from the application to the department or from the proposal to the legislature.

(2) Each sponsor authorized for a loan from coal severance tax bond proceeds may be required to pay to the department a pro rata share of the bond issuance costs and the administrative costs incurred by the department to complete the loan transaction.

**Section 6. Interest rates on loans.** Loans made from proceeds of coal severance tax bonds must be at interest rates specified in [sections 1 through 3], except that when loan requests are reduced, interest rates must be recalculated based on the methodology described in the renewable resource grant and loan program project evaluations and recommendations report submitted to the 55th legislature for the 1999 biennium. If the bonds or notes bear interest at an adjustable rate, the department of natural resources and conservation shall establish, at the time of the sale of each bond, an assured rate of interest as if the bond bore interest at a fixed rate. The assured rate of interest must be the rate of interest on the bonds for the purpose of calculating the interest rates on the loans pursuant to [sections 1 through 3].

**Section 7. Private and discount purchase of loans.** Loans to political subdivisions and local government entities and bonds, warrants, and notes issued in evidence of the loans may be made, purchased by, and sold to the department of natural resources and conservation at a discount and at private negotiated sale, notwithstanding the provisions of any other law applicable to political subdivisions or local government entities.

**Section 8. Appropriations established.** For any entity of state government that receives a loan under [sections 1 through 7], an appropriation is established for the amount of the loan upon award of the loan by the department of natural resources and conservation.

**Section 9. Severability.** If a part of [this act] is invalid, all valid parts that are severable from the invalid part remain in effect. If a part of [this act] is invalid in one or more of its applications, the part remains in effect in all valid applications that are severable from the invalid applications.

**Section 10. Effective date.** [This act] is effective on passage and approval.

AN ACT AUTHORIZING THE ISSUANCE OF GENERAL OBLIGATION BONDS TO FUND THE STATE BUILDING ENERGY CONSERVATION

HeinOnline -- 1997 vol. I 478 1997

PROGRAM; APPROVING ENERGY CONSERVATION PROJECTS FOR FISCAL YEARS 1998 AND 1999; APPROPRIATING BOND PROCEEDS TO THE DEPARTMENT OF ENVIRONMENTAL QUALITY; PLEDGING THE CREDIT OF THE STATE OF MONTANA TO SECURE THE BONDS TO BE ISSUED; REAPPROPRIATING STRIPPER-WELL PAYMENTS CONTAINED IN THE FEDERAL SPECIAL REVENUE FUND; AND PROVIDING AN EFFECTIVE DATE.

*Be it enacted by the Legislature of the State of Montana:*

**Section 1. Stripper-well payments — reappropriation — definition — priority.** (1) There is reappropriated from the stripper-well payments contained in the federal special revenue fund to the department of environmental quality $100,000 to fulfill duties authorized by 90-4-605 and 90-4-607. The original appropriation was contained in section 9, Chapter 597, Laws of 1989. The reappropriation is a biennial appropriation.

(2) (a) "Stripper-well payments" means the oil overcharge payments made to the United States treasury for distribution to the state of Montana as the result of the final settlement agreement in Cause No. M.D.L. 378, United States district court for the district of Kansas, and any interest accrued on the payments.

(b) The term does not include stripper-well payments that have been expended or legally obligated or have been incorporated into any of the existing federal energy programs as the result of prior appropriations by the legislature.

(3) The stripper-well payments reappropriated in this section have a higher priority than any other appropriation of stripper-well payments for fiscal years 1998 and 1999.

**Section 2. Appropriation of bond proceeds.** There is appropriated from bond proceeds authorized by Chapter 571, Laws of 1991, Chapter 350, Laws of 1993, Chapter 61, Laws of 1995, and [section 4] $625,000 to the department of environmental quality to fulfill duties under 90-4-605 and 90-4-607. This appropriation is a biennial appropriation.

**Section 3. Approval of energy conservation projects — definition.** (1) Pursuant to Title 90, chapter 4, part 6, the legislature approves the following energy conservation projects for fiscal years 1998 and 1999.

Department of Administration
- Scott Hart Building
- State Capitol
- Fish, Wildlife, and Parks Headquarters Building
- Walt Sullivan Building (Labor and Industry)
- Capitol Complex Lighting Upgrades

Montana State University-Billings
- College of Technology Building
- Physical Education Building

Department of Corrections
- State Prison

HeinOnline -- 1997 vol. I 479 1997

(2) In addition to the energy conservation projects listed in subsection (1), the department of environmental quality may expend funds appropriated under [section 4] to respond to lost energy saving opportunities. This includes coordination of energy conservation improvement projects witb the long-range building program's capital improvement projects.

(3) For purposes of this section, a "lost energy saving opportunity" means an opportunity to improve energy use that would provide significant energy and cost savings to the state and that will be technically infeasible or uneconomical if the department of environmental quality is delayed in providing the necessary funds until specific legislative approval can be obtained.

(4) The department of environmental quality shall encourage and use, when appropriate, performance contracting and guaranteed savings arrangements with private energy service companies. These arrangements must be coordinated by the departments of environmental quality and administration. Agencies may arrange financing other than state bonds for energy efficiency improvements in buildings supported by student fees and revenue. Whenever these improvements are financed in whole or in part using state general obligation bonds, resulting energy cost savings must be transferred to the energy conservation program account as provided in 90-4-614. Whenever these improvements are financed in wbole or in part using other state financing, including revenue bonds and the intercap program operated by the board of investments, resulting energy cost savings in excess of debt service, as determined by the department of environmental quality, must be transferred to the energy conservation program account as provided in 90-4-614. Whenever these improvements are financed entirely by private sources, the financing terms for these buildings must be provided for in a performance contract developed jointly by the agency and the departments of environmental quality and administration, and any resulting energy cost savings in these buildings in excess of debt service and program costs may not be transferred from the agency's budget.

(5) If the costs of the projects authorized in subsections (1) and (2) are substantially below the bond amount authorized in [section 4], the department of environmental quality may fund projects that otherwise would be proposed as part of the state building energy conservation package for fiscal years 2000 and 2001.

**Section 4. Bond authorization — appropriation of bond proceeds.** (1) Tbe board of examiners may, pursuant to 90-4-611, issue and sell bonds of the state in an aggregate principal amount not to exceed $5 million for fiscal years 1998 and 1999 for the projects approved in [section 3] and to fulfill duties authorized by 90-4-605 and 90-4-607, as provided in [section 2]. The bonds are general obligations for which the full faith and credit and taxing powers of the state are pledged for payment of the principal and interest on the bonds. The bonds must be issued as provided by Title 17, chapter 5, part 8.

(2) The proceeds of the bonds, other than any premiums and accrued interest received, must be deposited in the energy conservation program account established by 90-4-612. Premiums and accrued interest must be deposited in the debt service fund established in 17-2-102. Proceeds of bonds deposited in the

HeinOnline -- 1997 vol. I 480 1997

energy conservation program account may be used to pay the costs of issuing the bonds, to fulfill duties authorized by 90-4-605 and 90-4-607, and to fund the projects approved in [section 3]. For purposes of 17-5-803 and 17-5-804, the energy conservation program account constitutes a capital projects account. The bond proceeds must be available to the department of environmental quality and may be used for the purposes authorized in this section without further budgetary authorization.

**Section 5. Requirements for approval of state debt.** Because [section 4] authorizes the creation of a state debt, a vote of two-thirds of the members of each house is required for enactment of [section 4].

**Section 6. Effective date.** [This act] is effective July 1, 1997.

(b) If there was at that time an alcohol concentration in excess of ~~0.05~~ *0.04* but less than 0.10, that fact ~~shall~~ *may* not give rise to any inference that the person was or was not under the influence of alcohol, but ~~such~~ *the* fact may be

(3) The provisions of this part do not limit the introduction of any other competent evidence bearing on the question of whether the person was under the influence of alcohol, drugs, or a combination of ~~the two~~ *alcohol and drugs.*"

**Section 6.** Section 61-8-405, MCA, is amended to read:

(3) Upon the request of the person tested, full information concerning ~~the~~ *any* test ~~or tests taken~~ *given* at the direction of the peace officer must be made available to the person or the person's attorney.

~~(2) The results of a screening test may be used for determining whether probable cause exists to believe a person has violated 61-8-401, 61-8-406, or 61-8-410.~~

~~(3)~~*(2)* The person's obligation to submit to a test under 61-8-402 is not satisfied by the person submitting to a preliminary alcohol screening test pursuant to this section.

The issues in the hearing must be limited to determining whether a peace officer had a particularized suspicion that the person was driving or in actual physical control of a vehicle upon ways of this state open to the public while under the influence of alcohol or in violation of 61-8-410 and whether the person refused to submit to the test.

~~(7)~~*(6)* The provisions of 61-8-402~~(2) through (7)~~ *(3) through (8)* that do not conflict with this section are applicable to refusals under this section. If a person refuses a test requested under 61-8-402 and this section for the same incident, the department may not consider each a separate refusal for purposes of suspension or revocation under 61-8-402.

~~(6)~~*(7)* A test may not be conducted or requested under this section unless both the peace officer and the instrument used to conduct the preliminary alcohol screening test have been certified by the department pursuant to rules adopted under the authority of 61-8-405~~(6)~~*(5)*."

WHEREAS, approximately 80% of all drunk drivers killed on the nation's highways in 1995 had a blood alcohol concentration of 0.15% or higher, and to get to that level, a 160-peund man would have to consume more than six drinks in 1 hour; and

WHEREAS, the device serves as a constant reminder to a driver of the driver's drinking problem and the difficulties that have arisen from it; and

WHEREAS, having an ignition interlock device installed forces a driver to develop and practice strategies to avoid drinking and driving; and

WHEREAS, the device allows an offender to re-enter the driver licensing system legally, soher, and with insurance; and

WHEREAS, ignition interlock devices allow more offenders the oppertunity to maintain employment; and

WHEREAS, regnlar maintenance of the ignition interlock device facilitates the monitoring of offenders and allows for periodic checks on attempts to circumvent the device; and

WHEREAS, the use of ignition interlock devices is legal in Montana, but the devices are not currently available throughout the state nor will they be consistently used in the state until installation of these devices is required by Montana courts responsihle for sentencing DUI offenders.

~~(2) Notwithstanding the provisions of (1), the~~ ***Adoption of rules for solid or hazardous waste incinerator permits.*** *The* department shall proceed in a reasonable and timely manner in adopting rules implementing 75-2-215 ~~and in processing air quality permit applications required under 75-2-211 for solid or hazardous waste incinerators.~~"

**Section 17.** Section 75-10-401, MCA, is amended to read:

"**75-10-401. Short title.** This part shall be known and may be cited as the "Montana Hazardous Waste ~~and Underground Storage Tank~~ Act"."

**Section 18.** Section 75-10-402, MCA, is amended to read:

"**75-10-402. Findings and purpose.** (1) The legislature finds that the safe and proper management of hazardous wastes and used oil, the permitting of hazardous waste facilities, and the siting of facilities are matters for statewide regulation and are environmental issues that should properly be addressed and controlled by the state rather than by the federal government.

(2) It is the purpose of this part and it is the policy of this state to protect the public health and safety, the health of living organisms, and the environment from the effects of the improper, inadequate, or unsound management of hazardous wastes and used oil; to establish a program of regulation over used oil and the generation, storage, transportation, treatment, and disposal of hazardous wastes; to ~~assure~~ *ensure* the safe and adequate management of hazardous wastes and used oil within this state; and to authorize the department to adopt, administer, and enforce a hazardous waste program pursuant to the federal Resource Conservation and Recovery Act of 1976 (42 U.S.C. 6901 through 6987), as amended.

~~(3) The legislature also finds that petroleum products and hazardous substances stored in underground tanks are a separate category of substances that are regulated under the federal Resource Conservation and Recovery Act of 1976, as amended, and must be addressed and controlled properly by the state under the Montana Hazardous Waste and Underground Storage Tank Act. It is the purpose of this part to authorize the department to establish, administer, and enforce an underground storage tank leak prevention program for these regulated substances. The department may use the authority provided in 75-10-413 through 75-10-417 and other appropriate authority provided by law to remedy violations of underground storage tank requirements established under this part.~~"
